

tinta.

Your booking page, *ready today*.

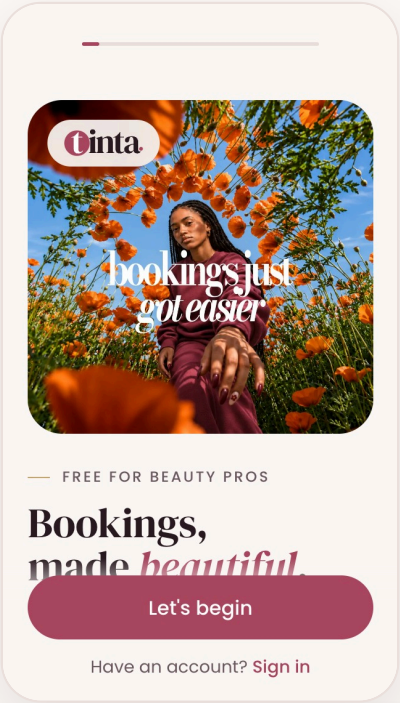

A short guide for studio owners. Set up once. Clients book and pay a small fee online. You get the rest at the appointment.

Nails | Hair | Makeup | Lashes | Spa

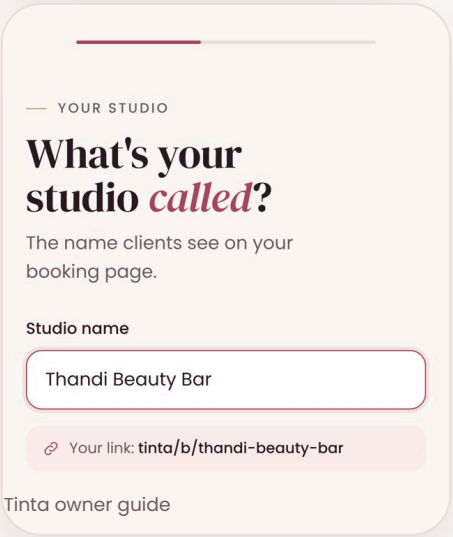

STEP 1

Sign *up*

It takes about two minutes. Have your phone and email ready.

1. Open **datosconsultancy.net/tinta/signup** on your phone.
2. Tap **Let's begin**. Add your name, email, phone and a password.
3. Type your **studio name**. This is the name clients see.
4. Your booking link is made from it, for example **tinta/b/thandi-beauty-bar**.

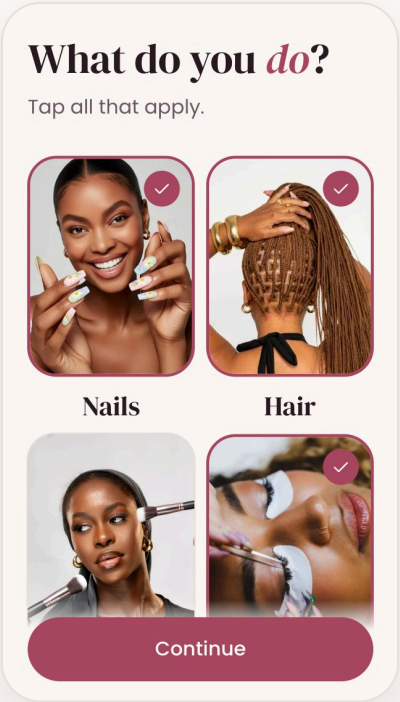

Tip. Use the name clients already know, the one on your sign or your Instagram. It makes your link easy to trust.

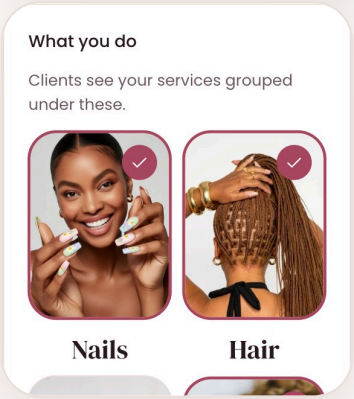

STEP 2

Pick what *you do*

Tap every service type you offer. You can pick more than one.

1. Tap the photos for what you offer: **Nails**, **Hair**, **Makeup**, **Lashes** or **Spa**.
2. A tick shows it is on. Tap again to turn it off.
3. Tap **Continue**. Then add your WhatsApp number and where you work.

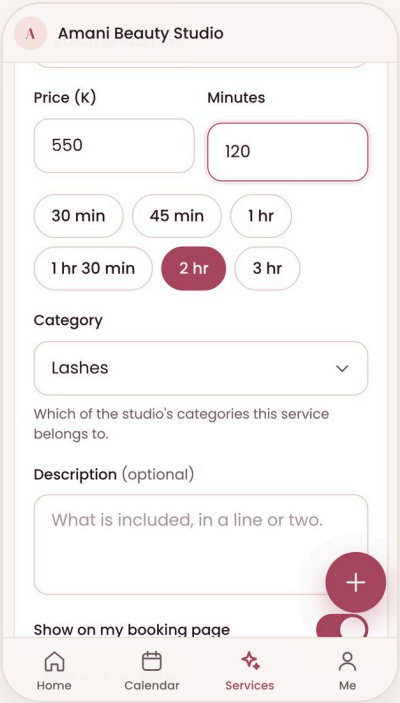

Changed what you offer? Go to **Me**, then **Booking page**, and tap the photos under **What you do**. Then tap **Save**.

Good to know. The first one you pick sets the photo at the top of your page until you add your own.

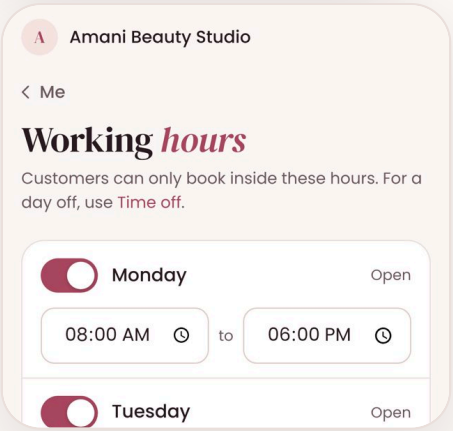

STEP 3

Add your *services*

A service is what a client books, with its price and how long it takes.

1. Tap **Services** at the bottom, then the **+** button.
2. Add a **photo**, the **name**, the **price** and the **time** it takes.
3. Choose its **Category**, for example Lashes. Clients see your services grouped this way.
4. Tap **Save**. Add as many as you like.

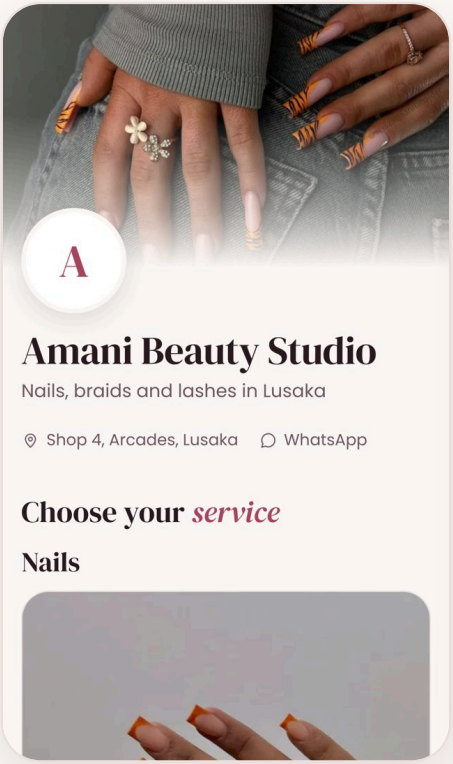

Set your hours. Go to **Me**, then **Working hours**. Switch on the days you work and set the times. Tap **Add a break** if you stop for lunch.

Tip. Clients can only book inside your hours. For a day off, use **Time off**.

STEP 4

Share your *page*

This is what your clients see. Each service type has its own heading.

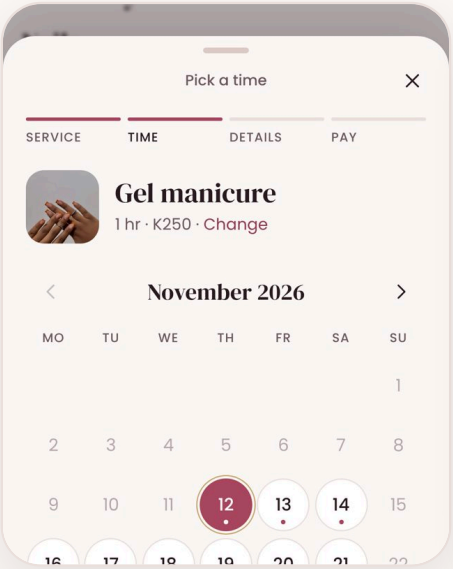

1. Tap **Me**, then **Booking page**, then **Open my page** to see it.
2. Copy your link and put it in your **WhatsApp status**, your **Instagram bio** and your **TikTok**.
3. Add a **cover photo** and a line about you, so your page feels like yours.

STEP 5

Get *booked*

Clients pick a service and a time, then pay a booking fee online.

1. The **booking fee is 15% of the service price**: at least K15 and never more than K105, rounded up to a whole kwacha. It goes to Tinta and counts toward the price. You collect the rest at the appointment. A K300 service has a K45 fee, so you collect K255.
2. Each booking lands in your **Calendar** and you get an email.
3. Took a booking on WhatsApp? Tap **+** in the Calendar to add it yourself.
